Expand your off-road tracks Experience real existing world class tracks Join more events & more multiplayer sessions Having new off-road tracks is great fun and excellent for developing your RC racing skills. But even more so, it is a unique opportunity to experience these world-renowned RC racing tracks which most people only get to read about in magazines and on the Internet. Each of the tracks has hosted big, real life Worlds or European championships and huge Nationals. Access to these tracks will also increase your ability to race others in multiplayer and online events. The virtual reality racing game VRC PRO Deluxe Off-Road tracks by TACx Team is a great way of motivating you to get back to your roots and start racing real cars and trucks again. The game offers you a lot of ways to play and explore the tracks, starting with the Pro mode. In this mode, you are racing the tracks as a professional driver. You can speed through the different corners and various slopes and banks, but you also have to avoid hitting the walls, gravel or other vehicles and getting stuck. As you get more skills, you will be able to move up to the Classic mode. Here you drive the tracks with a vehicle that feels similar to the real car. In this mode, the tracks have special power slides that you can use to make perfect curves on the track. If you want to speed up with your vehicle, you need to be really fast in the Pro mode. With more skills in the Classic mode, you can start racing in the Rally mode. In this mode, you have to be brave and use several routes to

achieve the best time. Racing the other vehicles and staying ahead of them is essential in the Rally mode. For this reason, a good driver will go to the Pro mode and pass on all of the other tracks. This way, he will be able to practice and play longer on the same tracks. To get started, you need to install VRC PRO Deluxe to your Oculus Rift, HTC Vive or Windows Mixed Reality Headset. VRC PRO Deluxe is available on Steam and can be bought on the Oculus Store for PC and Oculus Go and on the Oculus Home Store for the Oculus Rift.
