HIGH-SCHOOL COLLEGE: The "Main Story" continues with the best ending ever (maybe). Still a bit buggy so watch your butt. Also there is a glitch in the final battle so hurry back before it ends. You can complete the "Beginner's" quest in all of the "Minor Story" chapters so you will be able to get to the "Better Ending" section in short order. AI

Background Story: You know the rules. Will you play the hero or the underdog? Build a team of 4 classes, each class with a different rule set. Or build it as a solo experience by building a team of 3 classes.

Difficulty Options: Beginner, Normal, Hard Each set of rules has its own difficulty level. Skill Options:

Normal, Heroic, Lucky, Expert, Expert-Lucky These are all of the options that are available. They affect the game play and certain settings. Then choose to play against the computer or another real human!

Match making and lobby will all work exactly as in previous. Story Options: Story-Only, Offline Story,

Unlimited Story You'll notice that there are now 4 different story packs. You can choose to unlock any of them as you play the game. The online story is not connected to this game, it is a separate story with new locations and characters. The Offline Story is what you get when you first start playing the game. The Character Select screen is here as the

only story option. Add-ons: Texture Packs, Custom Skins, Character Perks, Weapons, Armor, Sounds, Character Art, Chat There are 4 add-on packs. The default pack is what you start out with when you first start. You can unlock one or all of these as you play the game. They add the new character models, armor sets, textures and other content. Sound Options: Low, Medium, High, Extra, Spatial These options control how the music sounds. As with the previous games, they are all "High" by default and can be changed to Low, Extra, Spatial or whatever you want. New Player Options: New Player Return Player Lost Player Save You can also choose to auto save the game whenever you lose a round, whenever you die or whenever you "miss" a turn. New Game Options: New Game Easy

Features Key:

A Vast World Full of Excitement: Open fields with a variety of exciting situations, and many gigantic dungeons. Through a combination of everything from adventure to strategy, action, and other game elements, the vast world of Elden Ring offers a total gaming experience.

Create your Own Character: Based on the popular, free-roaming RPG and MMORPG, Elder Scrolls, you can freely assign an appearance, weapons, armor, and skills to your character, and develop and grow a unique character of your own.

An Epic Drama: A deep multilayered story told in fragments, in which the various thoughts of the characters intersect in the Lands Between. With so many layers, you will be able to uncover the mysterious secrets of the Lands Between, to find out why each person is living and what they are fighting for.

NPCs That Feel Like Friends: Meticulously detailed, 16-man guided quests guide you through beautiful scenes on the journey to becoming an Elden Lord. In addition to manned quests where you can meet the people of the Lands Between, you can meet the NPCs in the game, like the constable and the villagers, and get friendly with them.

The Fight to Restore the Charm: You'll be put through the most severe test of your life to reach the end, only to face an ending where a forbidden ritual is about to be attempted. In order to protect the Lands Between, you will be faced with the War of Ages. Will you be able to stop it?

Gameplay Features:

-
- Various Battles where You Can Discover Powerful Movements to Fight and Skill the Battles
 - Meet Evil, the Negligence of the Dominion, and Roam the Lands Between
 - Loosely Connected Online Play that Becomes Like a Co-op Game
 - Large Variety of Game Elements that Includes Character Development and Gameplay
 - Seamlessly Connected Battles with a Variety of Different Dungeon Designs

My function copies a string array into a string. After I come to figure out how to do this, I will do some simple checking on it. The problem I have is that the input will only ever be 4 lines long, and the first line will always contain just one integer. The rest of the 3 lines contain spaces, commas and arithmetic symbols. The space can be between any two numbers, can be at the end of the line, or between any other character. The function should be able to copy each line, and should be able to count the total

number of numbers within each line. I have been at this for about 3 hours and can't seem to get an answer. Any help would be greatly appreciated.

```
public static void copyInto(String[] lines, String output){ int i = 0; String str = ""; try{ bff6bb2d33
